Projects :

➔ **Major Project :**

"What's your Budget?" Web Application : Nowadays, Budget Indian Gamers are struggling to find the right system configuration to help them build a gaming as well graphic designing PC and they end-up getting confused between humongous videos and dishonest resellers. **To help the vast community of Indian Gamers**, this website takes the user's budget amount and provide them the exact and the best PC set-up they can get with that budget to save the time as well as confusions. Additionally, this website is also designed to be a market place for the distribution of PC machines if the customer/client wants to build a custom PC set-up for gaming or designing.

➔ **Mini Projects :**

- **Social Notes App** – Create accounts (with authenticity and security) | Post your precious notes | Share notes to other users with read/read & edit accesses | Search users.

- **Personal Diary/Personal Blog web application** – A dynamic web application where we can add our own diary entries/blogs.

- **The Simon Game Web Application** – A static web application based on the classic American Game called "Simon" with 4 buttons that challenges the user to build a desired pattern using those buttons.
